**The Best Remedy For Croup.**

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whomp from one of the children. The croup, as a revolver, is sure to be lost in case of burglars. There used to be an old fashioned remedy for croup, known as hive syrup and told, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and give relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by Day Bros. Co.

**Who Was He?**

It is reported that an attempt was made to assassinate Capt. B. J. Ewen at Lexington, last Tuesday night about 9 o'clock. He and Judge Mann had been down at the Herald office reading the elections returns and left about 9 o'clock. On their return home to Judge Mann's, on Walnut street, where Capt. Ewen boarded, and when they had reached a dark alley, about 100 yards from Judge Mann's house, Capt. Ewen was fired on by a man secreted behind a post in the alley. One bullet pierced his hat and another the lapel of his coat. Ewen returned the fire, with what results is unknown, as the assassin has not been found, but a handkerchief with blood on it was found by the police in the alley, which leads them to believe that the assassin was wounded.

**How It Is to Be Spent at the World's Fair.**

**A MAGNIFICENT STATE BUILDING.**

Kentucky Only Wants One-Tenth as Much as Her Daughter to Advertise a Wealth of Products and Resources Quite as Great.

Missouri is spending one million dollars upon the State exhibit at the World's Fair. The State Commission, well organized, is pushing the work in every department. The State will appear at its best in all the great exhibit palaces of the Exposition.

Since Missouri is to act as hostess to all states the Commission expects to have the finest state building ever erected at an exposition. It will cost with its furnishing and landscaping about \$250,000. The building is over 300 feet long and has a magnificent site on a hill Southeast of the United States Government building. Work was begun on this building early in May.

The collection of exhibits has been in progress some time. Specimens of this year's crops throughout the state will be carefully stored until the time for installation. Each ear of corn for example will be wrapped in tissue paper that it may lose none of its valued qualities before it is placed on display. Fruits will be placed in cold storage as the season progresses, in order that all varieties may be included in the exhibit next year.

In the Live Stock department the Missouri mules will take a prominent part. Among the mules will be seen the largest mule on earth, a three-year-old mare belonging to Michael Murry, of Heverfors. She is 18 hands high, or six feet at the shoulders, and weighs 1,705 pounds.

A fine display of horses, cattle, hogs and poultry is also being provided for in this department.

Specimens of the mineral products of the state are being collected and classified. The exhibit of zinc will be the most extensive, as Missouri produced three-fourths of the world's output of this ore.

The prospects for an exhibit of fish from the streams and lakes of Missouri are excellent. The exhibit will be confined to native fishes and to those varieties which have demonstrated their adaptability to the waters and conditions of this latitude. Fish are now being caught and being placed in aquariums from which they will be transferred to the State section of the Fisheries building.

Schools and colleges throughout the State are preparing specimens of their work for the Educational exhibit. The public school system will be fully exemplified. To do this successfully all the educators of the State and those interested in education are working industriously.

In the collecting of other branches of Missouri's large display the work is being vigorously pushed.

Missouri is to spend a million dollars at the Fair. Kentucky, the mother of Missouri, certainly will be able to raise \$100,000 for making a display of her products and resources.

**WASHINGTON AT MORRISTOWN.**

New Jersey Reproduces Revolution. Any Hero's Headquarters as Her State Building at the Fair.

Ford's old tavern at Morristown, which at one time during the war of the Revolution was General Washington's headquarters, will be reproduced at the World's Fair, St. Louis, as New Jersey's State building.

The historic structure, which will be reproduced with fidelity, will cost \$20,000. New Jersey has already appropriated \$100,000, and is arranging for a liberal increase. Her industrial and educational exhibits will be as interesting in their way as the old Ford tavern is in the State's history.

The famous men of early days who were sheltered by the old tavern when the colonies were engaged in the memorable struggle for freedom, include Alexander Hamilton, Lafayette and Kosciuszko, Israel Putnam, Philip Schuyler and others.

**Do Good-It Pays.**

A Chicago man has observed that "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose it."

Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it for it has helped me out many a time." For sale by Day Bros. Co.

We have just received a car load of bedsteads, spring mattresses, chairs, chaises, all sizes and kinds, which we respectfully invite the public to call and examine. Prices are cheap.
